This application contains claims directed to the following patentably distinct species of the claimed invention:

Claims 16, 58 are drawn to a belt .

Claims 17, 59 are drawn to a neck support.

Claims 18, 60 are drawn to an arm support.

Claims 19, 61 are drawn to a leg support.

Claims 20, 62 are drawn to a knee support.

Claims 21, 63 are drawn to an ankle support.

Claims 22 , 64 are drawn to a hip-joint support.

Claims 23, 65 are drawn to an interface between a body stump and an artificial limb.

Claims 24 , 66 are drawn to an interface between a body and a backpack.

Claims 25, 67 are drawn to an interface between a body and a child carrier.

Claims 26- 32, 68-74 are drawn to a vest.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-15, 33- 57, 75-78 are generic.

A telephone call was made on October 7, 2004 to the attorney of record to request an oral election to the above restriction requirement, but he was not available at

Art Unit: 3764

the time. Mr. Castorina (who answered the phone) indicated that, at his office, the attorney usually prefers not to elect through telephone.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
